

# D3-10,000 + K2 Bioidentical Vitamin D

D3-10,000 + K2 is a soy-free, natural vitamin D3 and vitamin K2 formula. Vitamin D, considered both a hormone and a vitamin, is manufactured in response to skin's exposure to sunlight and is essential to the body's absorption of calcium. Natural vitamin D3 (cholecalciferol) is four times more potent than synthetic vitamin D2.\* In Latin, calciferol means "calcium carrier." Strong evidence suggests that vitamin D, when combined with calcium, has a significant impact on overall bone health.\* Additionally, vitamin D has been the subject of numerous studies for its effect on the immune system by promoting phagocytosis and immunomodulatory functions.\*

This formula includes a natural vitamin K2 (as menaquinone 7) which supports enhanced utilization of calcium in the bloodstream.\* It is an all-trans natural menaquinone-7 with the highest bioavailability and longest half-life in the blood.\* Menaquinone 7 supports prevention of bone loss and promotes bone integrity while significantly reducing the incidence of arterial calcification, promoting optimal cardiovascular function.\*

## Directions

Take one softgel per day or as directed by your healthcare practitioner.

## Does Not Contain

Milk, eggs, fish, shellfish, tree nuts, peanuts, wheat, soy, artificial colors, sweeteners or preservatives.

## Cautions

If pregnant or lactating, please consult with your healthcare practitioner before use. Keep out of reach of children.
